night to the stockholders of the Cockade City Athletic Association, showing receipts and disbursements during the last baseball season, gave rise to a good-natured discussion on the question of expense and the reduction thereof in future. The report showed gross receipts from all sources for the season of \$21.45-45, but the expenses of running the club were so large that no dividend could be declared. In this connection it is stated that the expense of running the Reamoke club, the permant winner, was \$12.95'. After free discussion the secretary's report was ordered received and recorded, and the election of directors was proceeded with. As announced in The Times-Dispatch, the number of directors was reduced from twelve to five as with a smaller board it is believed bushess can be more easily transacted. Six exhibition games with clubs of the International League have been arranged for the early part of April, and it is expected that still others will be arranged.

All contract players must be sent out before Petersary I. The hold-outs then make their appearance. It is likely that some of the members of last season's team will want more than the laws of organized ball allow them to have for a Class "C" club.
